

## EXECUTIVE DIRECTOR MESSAGE

Welcome to the new Marietta Redevelopment Corporation website! I am pleased to announce the launching of the new MRC webpage designed to market the City of Marietta. As the city's lead redevelopment agency, the Marietta Redevelopment Corporation's principal mission is to strengthen the economic and residential base of the City by revitalizing neighborhoods, commercial areas and other distressed properties.

The role of the MRC is to make strategic real estate investments in blighted areas, assemble properties for redevelopment where needed, and partner with the private sector to invest in our community.

This webpage will be a new tool for the MRC to communicate to Marietta citizens, investors as well as the business community. My goal for the site is to provide timely real estate market data and insightful business development resources that will assist with the economic growth of the community. The webpage contains current community demographics, employment sector data, and incentive programs offered by the City of Marietta.

I hope that you will find the site useful and will invite your colleagues, friends, and family members to utilize the site when evaluating communities across the Northwest Georgia region. I'm sure they'll find that Marietta is truly a live, work, and play community!

Enjoy!

*Reggie A. Taylor*
